

ND050 Operating instruction

ND050 is a P2PRO special charging base, with charging function and expand keyboard and mouse peripheral accessories function.

USB data transfer interface, connect keyboard or mouse operation or control P2 PRO screen interface.

Type C interface, with P2PRO charging cable and adapter connected to the power supply to charge P2PRO.

USB data transfer interface, connect keyboard or mouse operation or control P2 PRO screen interface.

The P2 PRO sensor head needs to be aligned with the PIN connector for charging and data transmission.

Name	ND050
Use For	POS Base
Working temperature	0°C---40°C
Storage temperature	-20°C---70°C
Pogo PIN Number	8
Pogo PIN Definition	VBUS/NC/GND/DP/DM/GND/ID/VBUS
Input Voltage	DC 5V
Input Current	2A
Output Voltage	DC 5V
Output Current	2A
Interface	Type C
HOST Interface	2 Type A

FCC ID: 2AH25ND050

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
